

The Student Safety Solution for K-12

GoGuardian Beacon is designed to help identify students who are at risk of suicide, self-harm, or possible harm to others. It can alert the right responders to get students help and quickly activate your school's response plan. An optional team of trained, U.S.-based safety support specialists is available to review and escalate active planning alerts 24/7.¹

Why GoGuardian Beacon

Suicide rates are at epidemic levels, and it's not always easy to identify students in crisis. Schools across the country are using Beacon to help identify students who are silently suffering or at risk of harm so that they can get the help they need.

- Nearly **1 in 5** teens have seriously considered suicide.²
- Suicide is the **2nd** leading cause of death among youth aged 10-24.³
- **75%** of school shooters had a history of suicidal thoughts, threats, gestures, or attempts.⁴

Key Features:

School mental health professionals can benefit from new ways to identify students who may be at risk of suicide, self-harm, or possible harm to others.

-  Identify students engaging in suicide or self-harm content online (including through Search).
-  **NEW** Identify searches for guns and bombs, violent acts, bullying, and cyberbullying.
-  Activate the right responders with a customizable escalation list.
-  Create faster response plans with insights into the phase of suicide and self-harm activity a student is engaged in.
-  Get alerts with context, screenshots, and past activities for faster, more-informed responses.
-  Receive phone calls for active planning alerts 24/7 from an optional team of U.S.-based safety specialists.
